

UCANE's Updated Employee Safety Manuals Now Available

Your Company Must Have A Comprehensive Safety Program!

This year's **Safety Manual** includes information on:

- OSHA's Final Rule on Silica Exposure Limits
- OSHA's Final Rule on Confined Space in Construction
- OSHA's New Cranes & Derricks Standard (1926.47)
- State and Federal Posting Requirements
- OSHA's Updated Trenching & Excavation Safety
- OSHA's Changes to the Penalty Calculation Limit
- Recordkeeping Requirements —
Employee Reporting on Fatalities & Hospitalizations
- OSHA 10-Hour Training Requirements

Promote A Safe Working Environment

It should be your company's policy to provide a safe place to work, with the prevention of accidents being your ultimate goal.

Your Insurance/Bonding carrier requires a Safety Program.
State and Federal Agencies require a Safety Program.

OSHA Inspectors Will Be Enforcing:

- Overall Construction Safety (29 CFR 1926)
- Excavating Standards
- Written Safety and Health Plans
- Hazard Communications Programs
- Drug Free Workplace
- OSHA 10-Hour Training Requirements

Examine The UCANE Pocket Directory

When ordering Company Safety Manuals, the **Safety Manual** section only, in the back of UCANE's **Pocket Directory**, will be made up into an individual **Employee Pocket Safety Manual** with **Your Company Name & Logo** printed on the cover. Employee signature cards verifying compliance with safety manual procedures are included. When signed, these cards should be placed in each employee's file.
