

Bipartisan Infrastructure Deal: A Historic Investment in Water

President Biden's leadership and bipartisan Congressional action have delivered the single-largest investment in U.S. water infrastructure ever. The Bipartisan Infrastructure Deal invests **more than \$50 billion** through EPA's highly successful water infrastructure programs.

\$20+ billion for safe drinking water.

\$15 billion in dedicated funding to replace lead pipes.

\$12+ billion to ensure clean water for communities.

\$1.8 billion to protect regional waters.

\$135 million for additional water improvements.

With this funding, EPA, states, Tribes, and localities have a once-in-a-lifetime opportunity to strengthen and rebuild America's water infrastructure. EPA will ensure that all communities get their fair share of this federal water infrastructure investment—especially disadvantaged communities. This funding will put Americans to work in good-paying jobs and support a thriving economy.

Safe Drinking Water

There are still an estimated 6 to 10 million lead service lines in cities and towns across the country, many of which are in low-income neighborhoods and communities of color. The Bipartisan Infrastructure Deal will deliver resources to remove these lead pipes, in line with President Biden's goal of removing 100% of lead service lines. This means that millions of families will be able to rely on drinking water that is safe from lead and other contaminants.

Clean Water for Communities

The nation's wastewater and stormwater management systems that are critical to safely returning used water to the environment are aging and breaking down. With more than \$12 billion for clean water infrastructure, communities will be able to upgrade these critical systems. This means that more people will be able to swim, fish, and play in their waters and the environment will be cleaner and more vibrant.

Protecting Regional Waters

Investing in regional waters—from the Chesapeake Bay, to the Great Lakes, to the Puget Sound—will better protect the nation's largest and most treasured waters to ensure that they continue to serve as vital economic and recreational assets.

Water is life. It keeps us healthy, sustains vibrant communities and dynamic ecosystems, and it supports the economy. **Water infrastructure** is essential to delivering reliable, affordable, and safe water. When water infrastructure fails, it threatens people's health, peace of mind, and the environment. The **Bipartisan Infrastructure Deal** provides a historic investment to replace pipes, upgrade water treatment facilities, and ensure that America's water systems are resilient for the future.

Safe Drinking Water

\$15 billion

Lead Service Line Replacement through the [Drinking Water State Revolving Funds](#)
49% of funds will be provided to communities as grants or principal forgiveness loans.
51% of funds will be available to communities for low-interest loans.
State match is not required.

\$11.7 billion

Drinking Water State Revolving Funds
49% of funds will be provided to communities as grants or principal forgiveness loans.
51% of funds will be available to communities for low-interest loans.
State match is reduced to 10%.

\$4 billion

Addressing Emerging Contaminants through the Drinking Water SRF
Can be used to remediate PFAS in drinking water.
All funds provided to communities as grants or principal forgiveness loans.
State match is not required.

\$5 billion

Addressing Emerging Contaminants in Disadvantaged Communities
Funding through [Small, Underserved, and Disadvantaged Communities Grants](#)
Can be used to remediate PFAS in drinking water.
Provided as grants.
State match is not required.

Clean Water for Communities

\$11.7 billion

Clean Water State Revolving Funds ([CWSRF](#))
49% of funds will be available for grants or principal forgiveness loans.
51% of funds will be available for low-interest loans.
State match is reduced to 10%.

\$1 billion

Addressing Emerging Contaminants
Funding through Clean Water State Revolving Funds.
All funds provided as grants or principal forgiveness loans.
State match is not required.

Protecting Regional Waters

\$1.7 billion

Geographic Programs
Funding directed to 12 federally recognized geographic programs.

\$132 million

National Estuary Program ([NEP](#))
Funding to be distributed across 28 Federally recognized estuaries to restore vulnerable coastal areas and communities.

Additional Investments in Water

\$60 million

Gulf of Mexico Hypoxia Task Force ([HTF](#))
Funding to be divided equally across 12 Hypoxia Task Force states.

\$50 million

Underground Injection Control Grants ([UIC](#))
Funding to support states' efforts to attain Class VI primacy.
100% of funding provided as grants.
State match is not required.

\$25 million

Permitting Class VI Wells ([Class VI Wells](#))
Support to EPA for carbon sequestration programs.
